-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-36 and 41, drawn to an interlocking animal toy, classified in class 119, subclass 707.
- II. Claims 37-40, drawn to method of entertaining an animal, classified in class 119, subclass 710.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product can be use in a materially different process since the product does not require the animal food. The product can be used empty or the product can contain additional toys such as small rubber balls, etc.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

This application contains claims directed to the following patentably distinct species of the claimed invention:

**Upon election of Group I,** applicant is further required to elect a distinct species:

Species A: Snap Fit, Fig. 1A-1C (Claims 2 and 22)

Species B: Twist and Lock, Fig. 3A and 3B (Claims 3 and 23)

Species C: Threaded connection, Fig. 4A and 4B (Claims 4 and 24)

Species D: Magnetic Connection, Fig. 5A and 5B, (Claims 5 and 25)

Species E: Flange Connection, Fig. 6A and 6B (Claims 6 and 26)

Species F: Ribbed Friction Fit, Fig. 7A and 7B, (Claims 7 and 27)

Species G: Pin connection, Fig. 8A and 8B (Claims 8 and 28)

Species H: Clip Connection, Fig. 9A and 9B (Claims 9 and 29)

Species I: Nozzle Connection, Fig. 10A and 10B (Claims 10, 13-20, and 30)

Species J: Coil Connection, Fig. 12 (Claims 12 and 34-36)

Species K: Tubular Union, Fig. 11 (Claims 11 and 31-33)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 21 and 41 are generic.

**Upon election of Group II**, applicant is required to elect a distinct species:

Species L: Tubular Union, Fig. 11, Claim 38

Species M: Coil Connection, Fig. 12, Claim 39

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 21 and 41 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 3643

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrea M. Valenti whose telephone number is 703-305-3010. The examiner can normally be reached on 7:30am-5pm M-F; Alternating Fridays Off.
